THE ELM CITY NURSERY COMPANY

S. Department of

1912

Important to Purchasers.

The new Edgewood parkway bridge. Our nurseries are just beyond. See map on following page.

PRICES-NOTE CAREFULLY.

Single rate prices are for less than five of a kind.

Ten-rate prices are for five or more and less than twenty-five of a kind.

Hundred-rate prices are for twenty-five or more and less than 250 of a kind.

Thousand-rate prices are for 250 or more of a kind.

We cannot agree to fill small orders for a few of a kind for less than single rates, as it oftentimes takes one over many acres of ground to fill a single order, and the proportionate expense

many acres of ground to fill a single order, and the proportionate expense of digging and packing orders must be taken into account.

SPECIAL DISCOUNTS ON TREES AND PLANTS. To those who send us orders for less than five of a kind, shipped at the same time, amounting to the following:

Orders amounting to Orders amounting to Sol. 00, a discount of Sol.

FROM SINGLE RATE CATALOG PRICES.

Special discounts on larger orders. Send us list for estimates.

Trees and Plants individually selected at our nurseries or special quotations will be charged for according to quoted price without discounts.

TERMS. Cash in advance from unknown parties or satisfactory reference. We send invoice at time of shipment of order, and should any error be noticed on receipt of goods notify us immediately and we will do all in our power to rectify it.

HOW ORDERS ARE SHIPPED. We ship all large trees and other bulky orders, which are to go outside the city, by freight, unless otherwise requested. Medium sized orders can be shipped by express to advantage; this is especially advisable where immediate arrival is desired. All orders are delivered free to local freight, express companies and in the city. We are not liable for delays by forwarding parties. If stock is not promptly received notify us and we will trace.

PACKING. We make no charge for packing excepting when stock is purchased at hundred-rate prices or in case of large bulky stock, or where we ship with carefully preserved balls of earth, etc., which necessitates devoting more time and packing material than is usual. In such instances a charge covering cost is made.

HOW TO REACH US. Our nursery and office are located at EDGEWOOD. Edgewood Avenue, just beyond Edgewood Park. See Guide Map on opposite page.

EARLY ORDERS. To one familiar with the rush at the packing season, it must be obvious that it is impossible to fill an order requiring much time in its preparation on short notice without doing an injustice to others who have their orders previously booked. In fairness to all, we have adopted the practice of filling orders in the rotation received, unless orders are received far enough ahead of the packing season, with instructions to ship at a given date, so that we can arrange a special shipping date. So we again say—place your order as far in advance of shipping as you possibly can, stating when you would like stock sent.

IMPORTANT NOTE. During March, April and May there are intervals when it is quite impossible for us to devote much time to showing parties about the nursery, as this is the most strenuous shipping period of the entire year.

TRANSPLANTING DIRECTIONS. This pamphlet we are pleased to send on request.

GARDENS.—AFTER CARE. Attractive gardens can only be reasonably expected where the original idea is good, workmanship thorough, materials high grade and necessary after care kept up. We can supply all these necessary features, even the after care, by special arrangement.

THE ELM CITY NURSERY COMPANY,

EDGEWOOD, Edgewood Avenue, NEW HAVEN, CONN.

Nursery Department.

Pussy Willows. When the silvery pussies burst from their brown winter shells and defy the frosty nights we are certain that spring time is not far away.

We grow and supply the best grade of nursery stock the market affords. Our facilities are very complete, every department being under efficient management. That our methods are meeting with popular favor is evidenced by the rapid growth our business enjoys. By purchasing from our Nurseries you are guaranteed High Quality stock. It is grown under most favorable conditions, dug and packed by skilled and careful workmen. Our nursery stock can be depended on to produce maximum results when planted under favorable conditions. The Nurseries are open to the public every day of the year, but positively no business will be transacted Sunday.

Landscape Department.

Where best results are anticipated in Landscape and other Gardening work experience is a most important factor. Our landscape department is under well equipped and expert management. We are glad to offer suggestions without charge to intending purchasers, but where landscape problems require special visits, plans, special

fications, etc., a charge is made consistent with value of services rendered. We will be pleased to take up this matter more fully with those who are interested. Ample reference from those who have employed us.

Important Landscape Problems.

It is seldom advisable to attempt to hurry through important landscape problems. Time enough should be given to work out an original idea, thoughtfully get into shape necessary sketches, drawings and specifications so that work can proceed methodically and therefore economically.

Gardening Department.

We maintain a force of competent gardeners who can execute gardening work in a thorough and practical manner. Pruning and otherwise caring for established trees, vines, etc., is a special feature of our work, and one that an owner can afford to put into experienced hands only. Many trees whose worth cannot be counted in dollars, which are perishing from neglect, can be restored to health and given a new lease of life if given proper treatment.

We can refer to many satisfied clients who have approved our planting plans, procured their stock from us and employed us to carry out the work. Genuine economy is many times gained by having all the work incidental to the carrying out of a landscape problem under one contract.

Contents of this catalog copyrighted 1912, by The Elm City Nursery Co., New Haven, Conn.

Edgewood, home of the late Donald G. Mitchell (Ike Marvel).

General Descriptive Price List.

THE following lists are so arranged that quick reference can be made to sizes and prices of the stock we have to offer. We have used a popular classification, as follows.

Deciduous Trees. Pages 2 to 15. Foliage dropping in the Autumn. Example, Maple.

Evergreen Trees. Pages 16 to 23. Foliage remaining on tree throughout the year. Example, Norway Spruce.

Evergreen Shrubs. Pages 24 to 28. Foliage remaining throughout the year. Example, Rhododendrons.

Deciduous Shrubs. Pages 30 to 41. Foliage dropping in Autumn. Example, Lilac.

Hardy Vines. Pages 42 to 45. Example, Wistaria.

Hardy Herbaceous Plants. Pages 46 to 60. Hardy permanent roots. Above the ground the growth is renewed annually. Example, Paeonia.

Choice Hardy Roses. Pages 61 to 63.

Fruit Department. General list of fruit trees, vines, etc. Pages 64 to 70.

The Botanical names are inserted alphabetically in THIS TYPE, under their respective classes and refer to the common English names.

Examples.—ACER, see Maple; PICEA, see Spruce, etc.

Deciduous Trees.

Andromeda or Sorrel Tree.

A rare and charming native small tree or shrub, graceful in outline, foliage of a glossy green, turning to the most brilliant red imaginable in the fall. Thrives in almost any location, even in the shade of larger trees. Its crowning glory, however, is its waxywhite lily-of-the-valley-like flowers, produced in terminal panicles during July and August, when flowering trees are indeed rare. illustration.

SPECIMENS.

All the stock in this Catalog marked "Speci-mens" has been grown with special care so as to develop symmetry of top and a splendid system of roots, so that they can be transplanted with perfect success and give immediate results.

We are devoting much time, attention and space to the cultivation of these "specimen" plants, as the planter's success amply demonstrates their increased value over stock grown in the usual way, in many instances.

Weeping Japan Cherry.

GOOD INVESTMENTS.

Hardy trees and other permanent plants increase in value every year, making a substantial investment. This is especially true where plantings of an ornamental nature are judiciously arranged. We owe much of the dignity and beauty of our present surroundings to plantings mademany years ago. Is it not our duty and pleasure to keep up this good work by doing what planting comes within our power?

DECIDUOUS TREES—Continued.	EACH.	PER 10.	PER 100.
DOGWOOD JAPAN WHITE (Cornus Kousa) DOGWOOD WHITE FLOWERING (Cornus Florida). See illustration above. Also see cover design. Specimens, 7 to 12 feet, \$2.00 to Our native White Dogwood is without a rival among ornamental trees of medium size. One can hardly over- plant with this beautiful tree. It is effective as a single specimen, in groups, mixed with other shrubs and trees, or along the woodland border. It transplants with great- est ease, thrives under a great variety of conditions, even the partial shade of woodlands and is long lived, gaining	15.00 1.50 1.00 .75	\$12.50 9.00 6.00 4.00	\$75.00 45.00 30.00
in dignity and charm with age. DOGWOOD RED FLOWERING (C. Florida var. Rubra) 3 to 4 feet. This is a very marked variety of the native white dogwood. Rosy red DOGWOOD WEEPING (C. Florida var. Pendula).		12.50 6.00

HORNBEAM EUROPEAN (C. Betulus)	1.50	12.50 7.50 5.00	

SUMMER LANDSCAPE EFFECTS.

By a careful selection of varieties a garden can be so arranged that its MAXIMUM BEAUTY will be at any given season of the year. Gardens for a Summer seashore or mountain home require special selections to get most effective results at just the season of the year when they will be most desired.

"The nursery stock was received in good condition and I was especially pleased with the White Dogwood and the Witch Hazel. It was a joy to take the covers off the boxes and see that Witch Hazel in full bloom."

Stately trees, whose canopy of leaves produce such a refreshing shade, velvety green lawns lending their quiet, restful expression, groups of trees and masses of shrubbery so effectively disposed that unsightly features are quite planted out of sight and at the same time producing marvelously beautiful effects in themselves—these are some of the features which make this view a nice example of informal landscape planting. The principles involved are applicable to limited city lot areas as well as freer spaces. Our landscape department is well equipped to create equally attractive effects, and if our extra large stock is used these effects can be gained in a surprisingly short time.

DECIDUOUS TREES—Continued.	EACH.	PER 10.	PER 100.

It is everybody's privilege and duty to plant shade and fruit trees wherever opportunity affords. Most of us are indebted to generations now gone, who planted many of the stately avenues and the old orchards. If we benefit by their efforts, can we better pay the debt than to keep up the good work?

WATER, ROCKS, VERDURE, SUNLIGHT AND SKY.

These are the gardener's materials and the gardener-artist will utilize them in such a way that wonderfully beautiful results will follow. Whether the area be the limited city garden or the many acres of a suburban plot, the charm of a well arranged garden can be equally intense. In America we have much to learn as to the possibilities of the very restricted city rear garden, but it can be worked out most charmingly, as amply proven by the Japanese.

Visit our Nursery and see the wonderful collection of materials so useful in garden making. Possibilities for their arrangement in your own garden will quickly present themselves in so many charming ways that it may surprise you.

Grows to be a large tree of grand proportions. Leaves 6 to 8 feet. resemble the Pin Oak somewhat in form and coloring, but 5 to 6 feet. less deeply divided. Brilliant Fall coloring.	1.25	10.00 6.00	90.00

AFTER THE FALL FROSTS.

A garden of tender plants is a sorrowful mass of wreckage after the first fall frost. Far from so with the garden where permanent hardy plants predominate. If judiciously arranged, the frosts only add a seasonable splendor by accentuating the glory of autumn coloring.

WHEN REAL WINTER COMES.

The garden arranged for winter effects now shows out with agreeable conspicuousness. Broadleaved evergreens, shrubs with bright red, brilliant green and rich twigs and berries stand out now in rich relief against the more sombre surroundings, an oasis of rich, warm color. The city gardens should be so arranged as to make the winter effects attractive.

Roots of Plants.

We seldom hear much said about the root system of a tree or plant; in fact, if the top of the plant looks shapely, little is thought of it otherwise by the usual buyer; but the fact is, its root system is an all important feature in its economy. If a plant is to be transplanted successfully it is of great importance that its roots have been suitably trained, and this applies especially to the larger trees and all evergreens. Appreciating this, we regularly root prune our trees, with the result that the stock we send out is in the best of condition, both under and above ground, for successful transplanting.

Pin Oak. A native tree of great beauty. The formal plants in tubs to the left are Bay Trees, see page 29, and the hedge, Japanese Barberries, see page 31.

[&]quot;The trees and shrubs came Saturday and are all in the ground. They were very nice trees and we thank you for your care in selecting and packing them. They were in fine condition and I should think they would grow and do finely."

Lombardy Poplars.

JUST why our nursery stock gives better results than most others is, after all, very simple. We know how to grow good stock; we have favorable soil to grow it in; we dig all orders with great care; we pack and ship with equal care.

Trees are living things and cannot be handled in a careless and ignorant manner and live. This not only applies to the nursery, but to the planter as well.

Parkman's Japan Crabapple, see page 4.

"The plants were received this morning in fine condition. We wish to thank you for the trouble you have taken in relation to the selection of the Catalpas, and assure you that we appreciate it very much, as well as for the selection of the other plants."

Weeping Willow. A well-known and most effective tree.

Are you satisfied with the arrangement of your grounds? It may be that you have a really splendid collection of choice trees, shrubs, vines, etc., but do not feel that from a truly effective land-scape standpoint that they are arranged to their best advantage. Do you know that practically all of the old shrubs, vines, and even the trees in most instances, can be transplanted safely if care is exercised?

Our LANDSCAPE DEPARTMENT is at your service. By carefully studying out a plan for the rearrangement of grounds the trees, shrubs and vines now there often prove invaluable for creating immediately attractive effects. The cost in many instances of this work is surprisingly small and the results gained are oftentimes most gratifying.

The above illustration shows a handsome White Pine (Pinus Strobus) about 12 feet high, with ball of earth carefully secured with burlaps, just dug from a nearby block of fine specimens. We have a splendid lot of specimen evergreens, which have been so frequently transplanted that large balls of earth can be taken up with each tree. Immediate effects can be gained by using these specimen trees.

Weeping Norway Spruce. No end of at-tractive effects can be procured with this ever-

Choice and Rare Evergreens.

Evergreens are a specialty with us and our collection includes many rare and beautiful specimens as well as a large stock of the more common sorts. We are fortunate in having soil conditions very favorable for their development, both of top and root. We transplant and root prune all our evergreens frequently, which practically insures their successful transplanting, even of the larger specimens.

How to Ship Evergreens.

We recommend hauling by teams when delivery is within economical distance. Small orders to dis-tant points can be boxed for shipping by freight or express, but where a number of specimen trees are to be sent, we advise shipping in bulk in car lots; this saves the cost of boxing and insures their arrival without injury. We gladly advise, if requested, the shipping method we recommend for individual shipments.

Prices of Evergreens.

See following pages for prices of the usual sizes. The prices of specimens will vary with each plant, as they vary greatly in individual merit. It is desirable to visit the nursery and make a personal selection, but where this is not practicable, we will gladly make selections for a customer.

Specimen Trees, Shrubs and Vines of extra size or unusual shapes. You may be in need of something very special for some particular location. From our extensive stock of specimens one can often find just what they need. If not practical to call personally, write us your requirements and we will correspond with you as to what we have which may be suitable.

[&]quot;Thank you very much for your excellent choice, the trees look delightful and make a great

improvement."

"That lovely row of little evergreens has so whetted our tastes for more that I want to know what you will let me have two fine specimen Colorado Blue Spruce for?

SPRUCE NORWAY VAR. WEEPING (P. Ex. Var. Pendula). Specimens, 5 to 12 feet, \$4.00 to A pendulous variety, foliage rather larger than that of 2 to 3 feet the species. Desirable as a novelty and makes a very 1 to 2 feet	20.00	8.00	
striking tree. SPRUCE WHITE (<i>Picea Alba</i>)Specimens, 4 to 15 feet, \$3.00 to This fine compact native spruce resembles the Norway Spruce excepting that it is much more compact and a slower grower. It is also very much hardier. 1 to 2 feet	1.50	12.50 7.50 4.00	60.00

Christmas Trees, Real Live Ones.

To have a Christmas tree that can be planted out after the Christmas holiday is over is proving to be a popular idea. Any of the preceding list of Pines, Spruces, Firs, etc., make beautiful Christmas trees, even the small ones for adorning the table.

Trees to be best fitted for this purpose should be well established. We can take up trees for this purpose, pot them and get them into the best of condition, delivering them in time for Christmas at a slight advance over the Catalog price. Inquire further if interested.

Looking toward office down one of the nursery drives. Many rare specimens for immedizte effect are shown along this drive.

Broad Leaved Evergreen Shrubs.

Rhododendrons produce most charming effects when planted in liberal masses.

THE great beauty of the broad leaved evergreens makes them most valuable for gardening purposes. Many are among our most spectacular and gorgeous flowering shrubs, while their broad, attractive leaves show out most effectively during the portion of the year when many trees and plants are without foliage. There is practically no end of the charming results that can be gained by the liberal use of this class of plants. Groupings generally give most attractive effects and the plants themselves do much better when planted this way.

Good, fertile loam should always be used in preparing for this class of plants. Sufficient water should be supplied at least until they become well established so that they will not suffer from dry-

ness. This does not necessarily mean frequent watering.

	EACH.	PER 10.	PER 100.

Mountain Laurel or Kalmia Latifolia. One of our most charming native evergreen flowering shrubs.

"The box of Rhododendrons and Kalmias was received yesterday. They were certainly sturdy plants and thoroughly well bushed and came in good condition."

Who questions for a moment the charm of deciduous trees in the winter. The charming intricacy of their branches against the sky, and the delicate velvety texture of their mossy bark? It is within the grove of fine old trees that the broad leaved shrubs, including Evergreens, Laurels, etc., add so materially to the winter charm. In fact, it is the place where this class of interesting plants thrive most happily.

Very desirable for planting in the foreground of other Rhododendrons.	3.00	8.00	

[&]quot;I purchased of you over 1000 Hybrid Rhododendrons. Not quite half of them were planted last fall and the rest you imported especially at my order for planting this spring. The plants have been well cared for since planting and are at present in good condition. The loss in planting was extremely small. The colors were all good."

Rose-Bay (Rhododendron Maximum.)

This native broad-leaf strictly hardy evergreen affords splendid opportunity for no end of charming effects. In large public parks and private estates they can be used by thousands, and even within the more restricted area of the usual city lot many chances for their liberal use are sure to arise. This beautiful Rhododendron is not only perfectly hardy but thrives luxuriantly even in the shady corner and under trees, and in June is a mass of lovely soft pink flowers similar in color to our well-known mountain laurel. It will develop into a nice individual specimen, but is most happy and effective when planted in generous masses. Our stock is collected high up on the table lands of the Allegheny Mountains in Pennsylvania, where it is so very cold and exposed to such severe weather conditions that even the native trees are dwarfed in growth.

Attractive arrangement under old established trees of Rose-Bay or Rhododendron Maximum, showing what can be done to create immediate effects.

[&]quot;The Rhododendrons purchased last spring seem to be doing very nicely."
"I wish you would ship me at once three more fine young Maples, similar to those you sent

Specimen Formal Trees and Shrubs.

In Pots, Tubs and Balls of Earth.

THE popular demand for formal trained trees and plants is now very great. We have gathered together from various European sources a large collection of splendid specimen Bay trees, Box, Holly, and other plants adaptable to this special purpose.

Charming grounds brimming with the wealth of good things that fill the eye with delight are the kind of gardens quite worth striving for. Equally beautiful gardens to the one here illustrated can be produced within a year's time at a cost that can be very moderate. Such accessories as pergolas, fountains, garden seats, etc., can be so constructed that the cost is very small or if iaste and pocketbook so decide the styles of these, garden features can be made very elaborate.

Evergreen Box. Trained Specimens.

These interesting evergreens lend themselves kindly to severe trimming and shape up into attractive forms. They are hardy, but if planted in a location much exposed to winter wind and sun, it is desirable to protect them.

Furonean	Hollies Yew	e I auro	le and I	Judran	~~~

European Hollies, Yews, Laurels and Hydrangeas. In tubs and boxes. We have assembled a splendid collection of these plants in various varieties and sizes, so useful in creating charming garden effects. Inquire for special list of stock on hand or better, visit the nursery and see them.

Pyramic

Special Japanese Exhibit.

A rare collection assembled personally by one of the members of the Company while in Japan a year ago is on exhibition at the Nursery. The individual specimens are not for sale singly, as the collection is too valuable to be broken up. A price will be considered, however, for the entire collection. A number of these trees are of great age and all of them are most interesting in their forms and expressions—a rare treat well worth seeing.

PHILADELPHUS, see Syringo. 2HOTINA VILLOSA. A tall tree-like shrub. Glossy rugose foliage. Clusters of flowers abundantly produced in June, followed by brilliant red fruit and foliage in the autumn. PHYSOCARPUS, see Spiraea.	1.00	7.50	

Hedge of California Privet. A more attractive plant for hedge purposes could hardly be imagined.

DECIDUOUS FLOWERING SHRUBS—Continued.	EACH.	PER 10.	PER 100.
PRIVET CALIFORNIA (Ligustrum Ovalifolium). Specimens, 4 to 8 feet \$1.00 to Hedge grades, per 1.000			
This shrub is now in universal demand as a 36 to 40 inches, \$70.00 hedge plant. It will grow everywhere, even in 30 to 36 inches, 60.00 quite a shady location, in a crowded city atmos- 24 to 30 inches, 50.00	.25 .15 .10	\$1.50 1.25 .75	\$10.00 8.00 6.00
phere or on the seashore. Leaves are bright glossy green and almost evergreen. Transplants 18 to 24 inches, 40.00 without loss and can be trimmed into any desired shape. "How to plant a Privet Hedge" is a special circular we send out. Ask for it.	.08	.60 .50	5.00 4.00
PRIVET CHINESE (L. Ibota)Specimens, 5 to 7 feet, \$1.00 to Very hardy shrub of upright habit, Much more hardy than California Privet. 4 to 5 feet. 3 to 4 feet. 2 to 3 feet. 1 to 2 feet.	.75 .50 .35	6.00 4.50 2.50 1.50	10.00
PRIVET CHINESE WEEPING (L. Ibota var. Regelianum). Specimens, 3 to 5 feet, \$1.00 to Very graceful form of preceding. One of our most desirable shrubs, either as a striking specimen or planted in groups. Similar in form to the Japan barberry and equally desirable for hedges. This hardy privet is becoming very popular, and we highly recommend it.	10.00 .50	4.00 3.00 1.50 1.25	20.00 13.00 10.00
PRIVET ENGLISH OR PRIM (L. Vulgaris) Specimens, 4 to 6 feet \$1 to This is the "Prim" of the English gardens, is a very desirable shrub and very hardy. Excellent for hedges. Abundant glossy black fruit. Very attractive in the fall.	5.00 .35 .25	2.50 2.00	20.00 15.00
PRIVET ENGLISH YELLOW-FRUIT (L. Vulgaris var.) Specimens, 4 to 6 feet, \$1.00 to Similar to preceding other than fruit, which is yellow. 2 to 3 feet.	5.00 .35 .25	2.50 2.00	20.00 15.00

Do Hedges Exhaust the Soil.

A tree or plant only takes from the soil the amount of nutritive matter required to develop its growth. A close trimmed hedge which is not allowed to grow materially larger from year to year, takes from the soil a very small amount of nutriment. The same is true of lawns which are kept close cropped.

[&]quot;The Privet arrived in splendid condition and I am much pleased with them. The hedge will certainly be an enormous improvement for the school grounds."

[&]quot;Please find enclosed money order in payment for Privet received. They were splendid. I will buy exclusively from your list hereafter."

Van Houtte's Spiraea. One of the hardiest, most graceful and altogether charming of hardy shrubs. Not only a graceful tumbling mass of purest white while in bloom, but an equally charming shrub throughout the year. Of easiest culture and in every way recommended.

Many a building wall and pillar is much enhanced in beauty by the judicious use of vines. These showing conspicuously in this illustration are the Boston Ivy or Ampelopsis Tricuspidata and Crimson Rambler Rose.

several weeks earlier.

Many people of refinement are spending thought, time and money now-a-days in their gardens. It is quite evident that we are awakening to the possibilities of beauty out-of-doors. The garden offers a field for the play of the imagination and in its development no end of fascinating and healthful recreation. Similar attractive treatments to the one here illustrated can be worked out within even limited restrictions. In this instance the vines on the arbors are grapes. Conspicuous in the foreground are spikes of Larkspurs, Shasta Daisies and Achillea, all hardy perennial plants.

PER PER.

Clematis Paniculata or Sweet Japan Clematis. No vine is to-day more popular than this, and justly so. Its usefulness is not confined to the porch or arbor. It is most effective trained on fences, walls, etc. It is of value to know that cattle will not browse on its foliage. If you wonder why, taste of the leaf some time. This special immunity makes it especially valuable for covering fences. See page 43.

"The box of plants and vines arrived in excellent condition. It was very gratifying to go through, and to plant them."

Let's Talk It Over.

Are you contemplating garden changes? If so, let us talk it over with you. Years of practical experience, coupled with extensive travel, including many foreign countries, give us a familiarity with what the world is doing and has done with gardening problems. This experience is at your service.

Hardy Herbaceous Plants.

HARDY Herbaceous plants are those whose roots are hardy and remain alive from year to year and whose tops die annually to the ground and are classified under this heading. It includes such splendid garden plants as Pæonies, Iris, Larkspurs, etc. The great ease with which these plants can be grown and their great variety of color and form and season of bloom makes them indispensable for the garden. Of late years, there has been a steadily increasing demand for this class of plants as well as a great improvement in the varieties, so that they now make an important feature in the business of many nurserymen. We are making them a specialty at the nursery, growing them in large quantities out in the open fields under the most favorable conditions. The classification is the one adopted by Prof. L. H. Bailey in the Cyclopedia of American Horticulture

Description of height at flowering season and time of blossoming, general color of bloom, and very brief descriptions only are attempted in this abridged list.

In arranging this list, we have used the popular or common names as far as seemed consistent.

ALTHELA, see Varrow.
ACONITUM, see Monkshood.
ADAM'S NEEDLE, see Lilies.
One foot. Splendid for covering the ground
ALTHEA, see Hollyhock.
ALYSSUM SAXATILE (Golden tuft). 1/2 to 1 foot. May and June.
Forms a clump of velvety foliage and flowers are the richest yellow and fragrant.
*AMSONIA ANGUSTIFOLIA. 2 to 4 feet. May. Glossy, willow-like leaves, forming an attractive bush of foliage, turning rich yellow in the fall. Flowers deep blue.
*ANTHEMIS TINCTORIA ALBA. 2 to 3 feet. July to October. Creamy white, otherwise similar to the following, both being very desirable and of easiest culture.
ANTHEMIS TINCTORIA VAR. KELWAYI. 2 to 3 feet. July to October. Brilliant yellow daisies in great masses, splendid for cutting and for the border garden.
AQUILEGHA, see Columbine.
ARABIS, see Rock-Cress.
ARENARIA, see Thrift.
ARTILLERY-PLANT, see Dictamnus.
ARUNDO DONAX, see Grasses.
ASCLEPIAS, see Butterfly-weed.
The above Hardy Herbaceous Plants are at the richest yellow dispensed to the leave.

The above Hardy Herbaceous Plants are offered in three sizes, as follows, unless other-noted. The very heavy field clumps can only be supplied in the sorts marked with to the left. Stock will be potted to order and held for any delivery date. wise noted. The a * to the left.

--	------	------------------------	---------------------------

ASPERULA ODORATA (Sweet Woodruff). 6 to 8 inches. May and June. White.
ASTER ALPINA. 6 to 8 inches. May to June. Low growing plant; fine for borders; effective for rockery. Flowers bright purple, rich yellow center.

*ASTER NOVAE ANGLIAE VAR. ROSEA. 2 to 5 feet. October and November.
A variety of our native New England aster, with very large flowers in the greatest profusion. Color, clear rosy red with rich golden center.
ASTER STOKE'S (Stokesia Cyanea). 1 to 2 feet. July to September. Double, light pleasing blue. Very desirable.
ASTER TATARICUS. 3 to 4 feet. October and November. Blue flowers. Very effective.

ASTER ENTATARICUS. 3 to 4 feet. October and November. Blue flowers.

ASTER STOKE'S (Sockesia Cyanea). 1 to 2 feet. July to September.

ASTER STOKE'S (Sockesia Cyanea). 1 to 2 feet. July to September.

ASTILEZ ARRICUS. 3 to 4 feet. October and November. Blue flowers. Very effective.

ASTILEZ ARRICUS. 3 to 4 feet. October and November. Blue flowers. Very effective.

ASTILEZ ARRICUS. 3 to 4 feet. July to October. Produces a mass of small white flowers so disposed as to form a veritable cloud of bloom. Keeps well when cut. BABY'S BREATH (Double). 3 to 4 feet. July to October. A new form and very desirable. BABY'S SLIPPER, see Lotus.

BABY'S SLIPPER, see Lotus.

BALLOON FLOWER, see Platycodon.

"BAPTISIA AUSTRALIS (False Indigo). 4 to 6 feet. June and July. Clear blue. Poliage effective and lasts well through the season.

BEARD TONGUE, see Pentstemon.

BERGAMOT, see Bee Balm.

BERGAMOT, see Bee Balm.

BERGAMOT, see Bee Balm.

Smaller size (mostly field grown)	15c.	1.25	10.00

*CHRISTMAS ROSE (Heleborus Niger). 6 to 12 inches. October to March.

This interesting pink and white plant really produces its flowers in the winter, out of doors. Daintily colored begonia-like blooms almost hidden in a clump of glossy evergreen leaves. It is best to select a place for this plant which is sheltered from the winds in winter and where it can remain for years undisturbed. With a light, temporary frame placed over the plants so as to protect from the snow and ice, the blooms develop far more freely and perfectly.

Christmas Rose Hybrids

APOTHEKER BOGREN. Rose purple. Very large.

Dr. Schleicher. Large. White inside, green outside.

Fr. C. Heinemann. Large. Deep purple, mottled.

Frau Irene Heinemann. Rose purple outside, greenish white inside.

WM. SCHMIDT. Small white flowers.

CHRYSANTHEMUM LEUCANTHEMUM HYBRID
UM, see Daisy.

**CHRYSANTHEMUM ULIGINOSUM (The Giant Daisy). 4 to 5 feet. July to September. Splendid plant for tall effects.

CHRYSANTHEMUM HARDY GARDEN. Pompons.

The hardy garden types are most valuable for late fall flowers. The plants we offer are well established in pots and will flower abundantly the first season. Price per pot, 25 cents; per 10 pots, \$2.00; per 100 pots, \$18.00.

Price per pot, 25 cents; per 10 pots, \$2.00; per 100 pots, \$18.00.

VARIETIES.

Cerlse Queen. Striking shade of cerise pink.
Cumberland. Large, pure yellow.
Dundee. Bright scarlet maroon.
Elkton. Light pink, large.
Janet. Silver, bronze and rose.
Jersey. Large, pure white.
Julia Lagravere. Crimson maroon.
Queen of Bul. Beautiful violet rose.
Queen of Whites. Large, creamy white.
Rhoda. Delicate shade of silvery pink.
Silver Queen. Silvery pink.
Windlass. Rich orange yellow.
CLEMATIS RECTA. 2 to 4 feet. June. Pure white.
COLUMBINE ROCKY MOUNTAIN BLUE (Aquilegia Coerulea). The beautiful western species with the long spurs.
COLUMBINE ROCKY MOUNTAIN YELLOW (A. Chrysantha). Similar to preceding other than color.
COLUMBINE ROCKY MOUNTAIN WHITE (A. Chrysantha). White form of preceding.

Hardy Chrysanthemums. The kinds which live out-of-doors and bloom without the protection of glass houses.

Dictamnus or Gas-Plant.

COLUMBINE EUROPEAN WHITE (A. Vulgaris).
A beautiful type of purest white.
CONE-FLOWER, (Purple), see Echinacea.
CONVALLARIA MAJALIS, see Lily-of-the-Valley.
CORAL-BELLS, see Heuchera.

CONVALLARIA MAJALIS, see Lily-of-the-Valley.
CORAL BELLS, see Heuchera.
CORAL LILY, see page 52.
*COREOPSIS LANCEOLATA (Tickseed). 2 to 3 feet.
June to October.
One of the best golden yellow flowers for the garden. Star-like blooms produced on wiry stems.
Excellent for cut flowers.
*COREOPSIS ROSEA. 8 to 12 inches, July to September. Rosy-pink, yellow center. Dark green cut leaf foliage, interesting foreground plant.
CORONILLA, see Crown Vetch.
CREEPING JENNY, see Lysimachia Nummularia.
*CROWN VETCH (Coronilla Varia). June to August.
A rampant creeper, with handsome globular heads of showy bright pink to white sweet pea-shaped flowers; a useful plant for the border and especially for covering banks, for the rockery and for naturalizing along the roadside.
*DAISY SHASTA (Burbank's) (Chrysanthemum Leucanthemum Hybridum). June to August. 1 to 2 feet.
Ray-flowers are of the purest glistening white, center golden yellow, bloom about four inches in diameter.
DAY-LILY, see Lilies page 52.

DAY-LILY, see Lilies page 52.

DAY-LILY, see Lilies page 52.

BELPHINIUM, see Larkspur.

*DESMODIUM PENDULIFOLIUM (Pea-Shrub). September and October.

While it is a true herbaceous plant the growth is so full and shrub-like that by Fall it has made a bushy plant from 3 to 5 feet high. Covered with wine red, pea-shaped bloom, which makes it very attractive. It is effective planted in masses where it has room to develop, grouped with shrubs or in the herbaceous border. A few large clumps at 75c. each, smaller sizes same prices as other herbaceous plants.

plants.
DIANTHUS, see Pinks.

1 to 2 feet. May to Septem-

DICENTRA EXIMIA. 1 to 2 feet. May to September. Pink.

A beautiful Bleeding Heart of dwarf habit, producing graceful spikes of pendant blooms and very graceful foliage.

Hardy Ferns.

*DICTAMNUS ALBUS FRAXINELLA (Gas-plant or Artillery plant). 2 to 3 feet. June and July. Fragrant, white.

*DICTAMNUS ALBUS VAR. RUBRA. 2 to 3 feet. June and July. Rose color, otherwise similar to above.

DIGITALIS, see Fox-Glove.

STY MILLER (Centaurea Gymnocarpa). Velve fern-like foliage, used for borders and foregrounds. Velvety white

*ECHINACEA PURPUREA (Purple Cone-flower). 3 to 5 feet. July to September.

ELEGANS LILY, see page 52.

The following Epimediums are all charming low-growing plants producing spikes and clusters of their attractive flowers in May and June. The foliage forms a cluster effective both in form and color. Especially useful for rockery planting. The following are distinct forms.

*EPIMEDIUM ALPINUM VAR. RUBRUM. 12 to 15 inches. June to July. Crimson. *EPIMEDIUM DIPHYLLUM ROSEUM. 10 to 15 inches.

*EPIMEDIUM DIPHYLLUM ROSEUM. 10 to 15 inches. April to May. Rose.
*EPIMEDIUM LILACINUM. 1 to 2 feet. May to June. Beautiful lilac flowers.

*EPIMEDIUM MACRANTHUM NIVEUM. 10 to 12 inches. May to June. White. May to June.

ERIANTHUS RAVENNAE, see Grasses.

ERYNGIUM PLANUM, see Sea Holly.

EULALIA, see Grasses

*EUPHORBIA COROLLATA (Spurge). 1 to 2 feet. July to October. White, very freely produced-Splendid border plant.

FALSE INDIGO, see Baptisia.

FERNS HARDY. Charming native plants. Inquire for special list.

*FESTUCA GLAUCA. 1 to 11/2 feet. Silvery blue foliage grass; very effective.

*FLAX PERENNIAL (Linum Perenne). 1 to 2 feet. June to September. A very desirable hardy garden plant, producing quantities of deep blue bell-shaped flowers on graceful delicate stems.

FORGET-ME-NOT (Myosotis Palustris). The true variety which blooms all summer. A delightful light blue.

FOX-GLOVE (Digitalis Purpurea). 3 to 5 feet. July and August. Old-fashioned garden favorite

of easiest culture.

FOX-GLOVE (Digitalis Purpurea Alba). A white form of the above.
FOX-GLOVE (Digitalis Ambigua) 2 to 3 feet. June to August. Very hardy. Creamy white.

FRAXINELLA, see Dictamnus.

FUNKIA, see Lily Day.

GAILLARDIA ARISTATA (Blanket Flower). 2 to 3 feet. July to October. Bright red, yellow splashes. Very desirable garden border plant.

GARDEN HELIOTROPE, see Valeriana.

GAS-PLANT, see Dictamnus.

GERMAN IRIS, see page 50.

*GEUM HELDREICHI. 10 to 12 inches. May to August. Pretty border plant, producing beautiful orange-red flowers in great profusion.

*GEUM HELDREICHI VAR. SPLENDENS. New variety even more showy than preceding.

GIANT REED, see Grasses.

*GLOBE-FLOWER (Trollius Asiaticus). 1 to 1½ feet. May. Resemble beautiful double butter-cups, rich clear yellow.

VAR. FIRE GLOBE. With deep orange blooms. One of the best GLOBE-FLOWER varieties

*GLOBE-FLOWER VAR. ORANGE GLOBE. A variety with deepest orange color.

GOLDEN BANDED LILY, see page 52.

GOLDEN-GLOW, see Rudbeckia.

GOLDEN-ROD (Solidago), in variety.

GOUTWEED, see Aegopodium.

GRASSES ORNAMENTAL. The following are all desirable.

ARUNDO DONAX or Giant Reed. 6 to 12 feet. Very effective.

ERIANTHUS RAVENNAE. 6 to 8 feet. Resembles the true Pampas grass and is perfectly hardy.

*MISCANTHUS SINENSIS (Eulalia Japonica). 6 to 8 feet. This and the next following are what are generally known as Japan plume grasses. They are very ornamental in growth. In Fall showy plumes appear.

(Continued on page 55).

TWELVE MONTHS A YEAR OF GARDEN CHARM.

Gardens can be so designed that they are beautiful every month of the year, even the winter ones. Such gardens are, after all, the only really economical ones.

The Herbaceous plants, including Paeonies, Japan Iris and Phlox, arrived in good order. We never saw a finer lot of plants.

The above Hardy Herbaceous Plants are offered in three sizes, as follows, unless otherwise noted. The very heavy field clumps can only be supplied in the sorts marked with a * to the left. Stock will be potted to order and held for any delivery date.

*Very strong Field Clumps (Express or Freight)	50c.	\$4.00	\$35.00
Strong Field Grown, usual size (Express recommended) Smaller size (mostly field grown)	25c.	2.00	15.00
	15c.	1.25	10.00

BSTE. Mid-season to late, clear pair blue, shaded darker, large fine form.

THEMENT. Mid-season to late, medium to low: rosy-red, base white, changing to deep rosy-red veined deeper red.

TH COOK. Medium to low grower, mid-season to late, of strong vigorous habit; of the clearest deep yellow, freely splashed rosy purple

NEST BERNOT. Early to mid-season, medium to tall, very free bloomer; delicate orange exquisitely suffused rosy purple. ERNEST

GARFIELD. Tall, medium to late, light blue, changing to rosy lilac on margins; light beard.

JACKMANII. Tall and late, robust, of splendid habit; old gold, changing to a rich yellow buff beautifully suffused and shaded with deep rosy tints. LA VALETTE. Tall late, good full form, very full, incurved; general color, clear pale blue suffused with rosy tints.

MAD. CHEREAU. Late and tall, of beautiful and unique form; pale blue and penciled with darker blue on margin.

MAD. MODESTE. Medium to late. Incurving, pale blue splashed and margined purple.

PALLIDA. Very late and tall. Resembles the early Florentine in its full large form. Color rich blue, being suffused with velvety royal purple.

POND POINT. Tall, very vigorous, very large and handsome, clearest deep blue.

QUEEN OF GYPSIES. Tall and late, rich, old gold, delicately suffused and penciled with rosy lilac; with beautiful pencilings of a deeper hue.

QUEEN OF MAY (Maxomosata). Medium to late, tall, perfect form, clearest rose slightly buff at base, shading into clear rose-veined with darker rosy-red.

SANS SOUCI. Medium to late season, clearest intense yellow, incurved, russet veining.

SILVER KING. Similar if not the same as Florentine. The earliest of the tall large type, of ideal full form, and when first unfolding is of the softest pale blue, white at maturity. WALNERI. Mid-season and medium grower, clear light blue suffused with royal purple.

The above Hardy Herbaceous Plants are offered in three sizes, as follows, unless otherwise noted. The very heavy field clumps can only be supplied in the sorts marked with a * to the left. Stock will be potted to order and held for any delivery date.

	Each.	Per 10.	Per 100.

*Japanese Iris.

(Iris Kaempferi or Laevigata.)

This splendid type of Iris is one of the most important of our strictly hardy permanent garden plants. For effective habit and gorgeous display of color it stands alone at its blossoming season, which is June 20th to July 20th.

VARIETIES.

VARIETIES.

BLUE JAY. Late, medium tall, vigorous, very large, splendid form; deep yellow at base, changing to a soft azure blue.

DINAH. Mid-season, very tall, medium to large, double, deep blue suffused with royal purple.

FRANCELLA. Early medium tall, medium size, segments uniform size and broad, almost white at base, changing to deep rose at margins, effective.

GOLD-BOUND. Medium, tall, pure double white.

KATHRYN. Barly, tall and vigorous; broad, pale, blue, beautifully veined royal purple.

KUMO-NO-SHO. Double, mid-season, tall, good size, white at base, freely veined rose, which suffuses the segment at the outer margin.

KUMO-NO-NYE. Late, double, splendid form, richest velvety royal blue, suffused slightly with royal purple, brilliant yellow throat.

OSHOKUN. Double, early, very tall and branching, flower large and showy, segments rich blue penciled deeper blue with white radiating lines.

PYRAMID. Early to late, very strong grower and free bloomer, of largest size and splendid form, segments light blue at base, to deep blue on margin, suffused with royal purple.

PURITY. Early, medium size, of the purest waxy white.

ROSY-MORN. Mid-season, tall and graceful, white at base, shading to deep rose.

URC-IN. Double, mid-season, tall and much branched, flower large, pale blue white, changing to rich clear blue.

*Iris Pumila (Hybrids).

This is a new race of charming Iris, intermediate between the early Pumila and Germanica, in time of blooming and size of flower.

ATROVIOLACEA. 6 to 10 inches. Medium dwarf, early to mid-season. Violet mauve to maroon red, paling to light on the margin.

BRIDE. 12 to 15 inches. Mid-season. Clear ivory white, veined with green and yellow.

BRIDESMAID. 10 to 15 inches. Clear white, slightly splashed with light blue, veined with yellow and green.

and green.

CYANEA. 6 to 10 inches. Deep velvety blue, painted with white veinings.

EXCELSA. 8 to 12 inches. Clearest deep yellow, with slight maroon splashings beautifully

veined.

FAIRY. 10 to 15 inches. Pale blue to white, freely splashed with varying shades of blue from faint to the deepest blue.

FORMOSA. 6 to 12 inches. Royal blue to deepest velvety royal purple, orange at base.

LUTEA. 10 to 15 inches. Mid-season. Clear yellow to deeper yellow splashed with attractive markings of blue and maroon.

"The Dwarf Iris (Pumila) blossomed finely this spring. I regard them a distinct acquisition and hope to get more another season."

Other Iris.

*IRIS PSEUDACORUS. 3 to 5 feet. June. Very robust, flowers of medium size, intense clear,

*IRIS PSEUDACORUS. 3 to 5 feet. June. Very rooust, nowers of medium size, included deep yellow.

*IRIS SIBERICA. 2 to 3 feet. June. Robust growers, foliage somewhat like the Japan Iris. Flowers borne on slender stems, well up above the foliage; color, clear rich blue. Flowers are somewhat larger than our native field Iris. In bloom with the late German Iris. Very desirable and especially so for naturalizing.

*IRIS SIBERICA ALBA. Similar to preceding but white.

*IRIS SIBERICA FL. PL. Double form. Blooms late with the Japan Iris.

*IRIS SIBERICA VAR. ORIENTALIS. 2 to 3 feet. June. A beautiful Iris of the most vivid velvety deep blue, of medium size and blooming with great freedom.

IRIS GERMANICA, see page 50.

IRIS KAEMPFERI, see this page.

PRICES, SEE FOOT OF OPPOSITE PAGE.

Lilies (Hardy Garden).

The family of lilies includes some of our most beautiful garden flowers and fortunately some of the most beautiful of them are perfectly hardy. There are many of them of easiest culture and even the less easy ones to succeed with, bountifully repay for any extra attention they may exact.

Speciosum Lilies.

AM'S THREAD AND NEEDLE (Yucca Filamentosa). One of the most valuable plants in cultivation for general garden and landscape planting. Its dagger-like foliage, which is evergreen, forms an attractive clump of foliage, from which appear, in July and August, tall and stately spikes 3 to 6 feet high, bearing large panicles of white lilies, which are most picturesque and decorative. orative.

BLACKBERRY LILY (Belemcanda Chinensis). 2 to 3 feet. June and July.

Yellow.

DAY LILIES (Funkia). These charming garden lilies are very useful in the hardy border, as a foreground to shrubbery groups and about the foundations of buildings, etc. Their clusters of heartshaped leaves and graceful flower heads showing effectively. They thrive well in partial shade, as well as in full sunshine. The following varieties are all very dedesirable:

*BLUE DAY LILY (Coerulea). 2 feet. August, September. Dark g een glossy foliage, flowers light blue.

*FORTUNES DAY LILY. 2 to 3 ft. July. Rare type. Large, glaucous, heart-shaped leaves, pale lilac.

*SIEBOLD'S DAY LILY. 1 to 2
feet. July and August. Another
beautiful sort with silvery blue tint to foliage. Flowers pale lilac.

*VARIEGATED DAY LILY (Undulata). 8 to 12 inches. July and August. A very popular variety; leaves variegated white and green.

*WHITE DAY LILY (Subcordata). 1 to 2 feet. July and August. Large light green leaves, flowers purest white.

CORAL LILY (Siberian) (L. Tenuifolium). One of the most delicate and charming species. 1 to 2 feet high, with 1 to 15 or more nodding rich scarlet flowers.

ELEGANS LILY (L. Elegans). These hardy lilies are very showy and of easiest culture, producing, during the early summer, their brilliant flowers very freely. The following are all attractive varieties.

VAR. AURORA. Deep rich orange, suffused scarlet.

VAR. BICOLOR. Bright red flushed orange, very showy and large.

VAR. LEONARD JOERG. Rich apricot spotted; very fine.

VAR. PAINTED CHIEF. Bright flame color.

AR. ROBUSTA. Magnificent large flower; orange spotted VAR. black.

VAR. SANGUINEUM. Very rich dark red with few spots.

VAR. WALLACEI. One of the smaller and later forms; a very reliable one for general use.

GOLDEN-BANDED LILY (I. Auratum). This is a most popular lily. No species ever had so much general favor. Flowers white, with a central golden band and numerous deep purple spots. Height 2 to 6 feet. July and August. Late November delivery.

HANSON'S LILY (L. Maculatum). Attains a height of 3 feet. Flowers reddish orange, six to ten in a cluster; petals thick and durable. A rare Japanese lily.

Andrea niy.

MADONNA LILY (L. Candidum).

Handsome, large, fragrant, pure white flowers. Easy of culture; does best when left undisturbed after planting. August and September are the best months to plant.

SPECIOSUM LILY WHITE (L. Speciosum Album). One of the best garden lilies; purest white. Very hardy. Late November delivery.

The above Lilies are offered in three sizes, as follows, unless otherwise noted. very heavy field clumps can only be supplied in the sorts marked with a * to the left. Stock will be potted to order and held for any delivery date.

	Each.	Per 10.	Per 100.
*Very strong Field Clumps	50c.	\$4.00	\$ 35.00
Extra selected	25c.	2.00	15.00
Medium size	15c.	1.25	10.00

SPECIOSUM LILY, RED (L. Speciosum Rubrum). One of the most showy of lilies of medium height and not difficult to grow in any good garden soil. Like the preceding other than color, which is rosy red, beautifully marked with deeper red. Late November delivery.

ER LILY VAR. SPLENDENS (L. Tigrinum). This is an improved Tiger Lily and a most beautiful lily for general use.

TIGER LILY (Double). Similar to above other than the flowers, which are quite double. Very desirable.

TORCH LILY (Kniphofia Aloides). 2 to 3 feet. August to October. Orange and scarlet. Known as the Red Hot Poker. A desirable border plant.

TURK'S CAP LILY (L. Superbum). This native lily is one of the finest and most hardy of all lilies.

It often attains a height of 6 feet, and produces a large number of flowers. Its flowers are bright orange in color with

Yellow Garden Lilies. Hemerocallis.

dark spots

Yellow Garden Lilies

(Hemerocallis).

These beautiful and fragrant golden lilies are of the easiest culture, succeeding in almost any garden soil. They are remarkably free from the enemies that so unfortunately beset so many of our garden favorites. By a selection from the following list, these beautiful lilies can be had in flower from May to August. The leaf growth starts very early in the spring, adding a pleasing light green to the border where they are used. This growth quickly shoots up into a graceful clump of flowing rich green foliage, which lends its attraction to the garden border. Springing from this growth graceful flower spikes appear, liberally supplied with flowers and buds for several weeks. The color is from soft lemon to richest apricot yellow and deep orange, varying with the variety. Fragrance delightful. No other one class of strictly hardy garden lilies can be depended on to do more towards delightful permanent garden effects.

VARIETIES OF YELLOW GARDEN LILIES. (See illustration).

AURANTIACA VAR. MAJOR (Hemerocallis). Orange yellow, new and rare. 2 to 2½ feet. June and July. Large and rich. 50c. each.

*EARLY LEMON LILY (H. Minor). 1 to 2 feet. Early June. Striking lemon yellow, fragrant.

*EARLY YELLOW LILY (H. Dumortierii).

1 to 1½ feet. June. Deep yellow and fragrant.
quite dwarf and makes a splendid foreground
plant.

*LEMON LILY (H. Flava). 2 to 3 feet. June and July. Clear lemon yellow; fragrant. This old garden lily is a great favorite.

*MIDDENDORF'S LILY (H. Middendorfiana).
1 to 2 feet. June to July. Deep golden 1 to 2 yellow.

*ORANGE MAN LILY (H. Orange Man). 1 to 2 feet. July and August. Rich deep orange; very beautiful.

*ORANGE LILY (H. Fulva). 2 to 4 feet. July and August. This grand old lily is now much in demand. It is splendid for naturalizing in large masses. Large quantities at special prices for naturalizing along drives, etc.

ORANGE LILY VAR. KWANSO. Rich orange red; semi-double; very effective and desirable.

ORANGE LILY VAR. VARIEGATA. A form of the orange lily with variegated green and white foliage, which forms a very striking effect.

*THUNBERG'S LEMON LILY (H. Thunbergii).

Late blooming Lemon Lily. 2 to 3 feet. July and August. Fragrant and very desirable. Rich lemon yellow.

*LILY OF THE VALLEY (Convallaria Majalis). A popular favorite and once planted increases in beauty for many years. Pips (single crowns), each 5c.; per 10, 45c.; per 100, \$4.00. Clumps of roots,

Lilv of the Vallev.

The above Hardy Herbaceous Plants are offered in three sizes, as follows, unless otherwise noted. The very heavy field clumps can only be supplied in the sorts marked with a * to the left. Stock will be potted to order and held for any delivery date.

	Each.	Per 10.	Per 100.
*Very strong Field Clumps	50c.	\$14.00	\$35.00
Extra selected		2.00	15.00
Medium size	15c.	1.25	10.00

Paeonies (Herbaceous).

The Paeony is to-day without a rival as a hardy garden favorite, and quite naturally so, as no other hardy garden plant thrives with as little special care and produces as fine a display of gorgeous blooms. The great diversity of color and form which can now be obtained in the new and improved varieties very much increases their value.

NOTE. The number to the left of the variety indicates the sizes we have to offer of that variety.

1, 2, 3, 4. Ambroise Verschaffelt. Dazzling red. Large cup-shaped. Late.

1, 2, 3, 4. Andro Lauries. Free grower, very large, deep pink. One of the latest sorts.

2, 3, 4. Atrosanguinea. One of the best double reds. Deep, full and broad bloom.

2, 3, 4. Boule de Neige. White, lightly sulphured. Center bordered with carmine.

2, 3, 4. Caroline Mather. Very large double, rosy crimson. Silky petals, yellow center.

1, 2, 3, 4. Delachei. Dark red, fine, very late. One of the best, with very upright stems.

1, 2, 3, 4. Delachei. Dark red, fine, very late. One of the best, with very upright stems.

2, 3, 4. Duke of Wellington. Sulphury white sort, of fine form, recently sent out. Very vigorous grower and free bloomer. \$1.25, \$1.00, 75c., 50c.

1, 2, 3, 4. Elegans. Outer petals rose; center full with curving and twisting petalets, shading from light rose to white. Tall, vigorous grower and free bloomer.

1, 2, 3, 4. Festiva Alba. (syn. Queen Victoria and Alba Superba). Double sulphury white.

1, 2, 3, 4. Festiva Maxima. By many considered the best white yet introduced, both in color and form. Of the purest white, splashed with a few streaks of crimson. Our stock is the true strain which is so difficult to obtain. \$1.25, \$1.00, 75c., 50c.

1, 2, 3, 4. Francis Ortegal. Deep maroon red, broad glossy petals, shows yellow center.

1, 2, 3, 4. Golden Harvest. Nearest to yellow and splendid form. \$1.50, \$1.00, 75c., 50c.

2, 3, 4. Golden Harvest. Nearest to yellow and splendid form. \$1.50, \$1.00, 75c., 50c.

2, 3, 4. Hermes. Single, early free, dazzling red, abundance of yellow stamens.

2, 3, 4. Hermes. Single, early free, dazzling red, abundance of yellow stamens.

2, 3, 4. Hermes. Repormous double flowers of a clear rose, one of the very latest. Selected List of Varieties. Goliath. Single, early free, dazzling red, abundance of yellow stamens. Single, early medium grower. Deep maroon red, showing an abundance of yellow stamens. Humeii Rosea. Enormous double flowers of a clear rose, one of the very latest. Lady Bramwell. Pink.

Lee's Grandiflora. Superb late double sort, deep rosy red. \$1.50, \$1.25, \$1.00, 75c.

Madam de Verneville. On strong stem; very well formed, compact, full imbricated blooms, literally packed with overlapping petals; sulphur white, center delicate rosy white with an accidental touch of carmine. \$1.50, \$1.25, \$1.00, 75c.

Marie Lemoine. Delicate ivory white, full center, very late.

Mons Rousselon. Free bloomer, clear pink, fine for cutting,
Mont. Blanc. Guards pure white, petals opening sulphury yellow fading to creamy white. Officinalis Flora Plena. Double crimson. Piny of the old gardens, always desirable.

Officinalis Rosea Superba. Light rose, beautiful flower, very early. \$1.50, \$1.00.

Pink Beauty. Double, free bloomer, light clear pink, desirable.

Reine Hortense. Late flowering; light rose and full to the center. Habit very erect.

Richardson's Rubra Superba. Large, late, vigorous, called the Red Festiva Maxima.

Rubra Triumphans. (Reeves). Bright carmine, almost a single flower.

Tenuifolia Flora Plena. Double crimson. Deeply cut fern-like foliage.

Thorbeckil. Deep red pink and fine form; lighter in center. Medium dwarf habit.

Zoe Calot. Fine rose, with lighter rose center. A charming sort.

No. 8. Outer petals light pink; splendid late sort.

We have many other varieties on triad which will be listed as they prove desirable. 2, 3, 2, 3, 2, 3, 1, 2, 3, 2, 3, 3, 4. 2, 3, 4. 1, 2, 3, 4. 1, 2, 3, 4. 1, 2, 3, 4. 2, 3, 4. 1, 2, 3, 4. 1, 2, 3, 4. 1, 2, 3, 4. 1, 2, 3, 4. . f... U...b.. Par

MEADOW SWEET, see Spiraea.

MISCANTHUS, see Grasses.

MONARDA, see Bee-Balm.

MONKSHOOD (Aconitum Autumnale). 5 to 6 feet. September, October. Deep blue and a stately showy plant.

MONKSHOOD (Aconsum Aumman, showy plant.

MONKSHOOD (Aconsum Fishers). 4 to 6 feet. August and September. Light blue.

MONKSHOOD (Aconsum Napellus). 3 to 4 feet. June to July. Deep blue.

MONKSHOOD (Aconsum Napellus Bi-Color). 3 to 4 feet. July and August. Blue, mottled with

MONKSHOOD (Aconium Napellus). 3 to 4 feet. June to July. Deep blue.

MONKSHOOD (Aconium Napellus). 3 to 4 feet. July and August. Blue, mottled with

white.

MONKSHOOD (Aconium Wilsonii). 4 to 6 feet. August and September. Deep blue.

MOSS-PINK, see Phlox.

MYOSOTIS PALUSTRIS, see Forget-me-not.

*MYRTLE BLUE (Vinca Minor). In 4 inch pots. 25c. each. \$2.00 per 10. \$18.00 per 100.

One of the best evergreen plants for covering the ground and is a success in quite shady places, provided the ground is fertile.

*MYRTLE WHITE (Vinca Minor Var. Alba).

A pure white variety of preceding.

OENOTHERA, see Primrose.

*PACHYSANDRA TERMINALIS. 6 to 8 inches. Foliage evergreen and very much resembles our interesting native wood plant, Princess Pine. It is perfectly adapted to the shade under trees, and will form a solid evergreen covering where grass will not grow.

PAEONIA, see page 54.

PAPAVER, see Poppy

*PEA PERENNIAL (Lathyrus Latifolius). 5 to 6 feet. June to October. Rosy pink.

*PEA PERENNIAL VAR. ALBA. A white variety of preceding.

*PEA PERENNIAL VAR. PINK BEAUTY. A new and very beautiful variety.

*PENTSTEMON BARBATUM. July and August. 2 to 3 feet. Brilliant red tube-like flowers in loose panicles.

PERIWINKLE, see Myrtle.

PHALARIS ARUNDINACEA, see Grasses.

*PHLOX AMOENA. 3 to 5 inches. April and May. Very desirable for carpeting the ground and for rockeries. Bright pink.

PHLOX DIVARIACATA (Wild Sweet William). 6 to 8 inches. April and May. Lilac, showy; very attractive and desirable.

PHLOX DIVARIACATA (wild Sweet William). 6 to 8 inches. April and May. Lilac, showy; very attractive and desirable.

PHLOX Paicean flowers and

Hardy Phloses are now among the most popular of hardy garden flowers and justly so. Perfectly hardy, easy to make thrive, and producing gorgeous color effects. The following list has been selected from our large collection as comprising the cream of the distinct colors. Other varieties can also be supplied.

CARAN D'ACHE. A large flower, rosy carmine color, center violet tinged with rose.

DIADEM. Dwarf, large pure white.

ETNA. Tall, bright red, tinged with almon.

GENERAL VON HEUTSZ. scarlet, shaded rose with cr eye; a very desirable variety. crimson-red

HERMINE. Very dwarf, pure white.

INDEPENDENCE. 2. Tall grower, late large creamy white bloomer, fine flowers.

DEVENDMENT. Dwarf, bright, soft pink, tinted salmon, very showy.

LE MAHDI. Tall, deep reddish-violet with darker eye, very fine.

MISS LINGARD. White with very light and the salmon was a single salmon with the salmon with the salmon was a single salmon with the salmon was a salmon with the salmon was a salmon was a

MISS LINGARD. White with very light pink eye, long panicles, very early. PANTHEON. Tall, bright rose, flowers very large.

RICHARD WALLACE. Tall, pure white with bright crimson center, large flowers in immense panicles.

THEBAIDE. Tall, rich orange-scarlet. VON HOCHBERG. Tall, the ideal Crimson Phlox, the richest of its color. WM. ROBINSON. Medium, large light

rose flowers. PHLOX OVATA. 5 to 6 inches. May. Low mat of evergreen foliage. Flowers rosy

mat of evergineen tonage. Flowers 1083, pink.
PHLOX SUBULATA (Moss Pink). 3 to 4 inches. May. Forms low, flat masses of evergreen foliage. When in bloom presents a solid mass of color.

*VAR. ALBA. A white form of the above.

*VAR. ATRO-RUBRA. Clear deep claret.

*VAR SADIE. White, shaded with

Delphinium. (Larkspur).

The above Hardy Herbaceous Plants are offered in three sizes, as follows, unless otherwise noted. The very heavy field clumps can only be supplied in the sorts marked with a * to the left. Stock will be potted to order and held for any delivery date.

	Each.	Per 10.	Per 100.
*Very strong Field Clumps (Express or Freight)	50c.	\$4.00	\$ 35.00
Strong Field Grown, usual size (Express recommended)	25c.	2.00	15.00
Smaller size (mostly field grown)	15c.	1.25	10.00

Hardy Phlox (Phlox paniculata).

- *PHYSOSTEGIA VIRGINICA (False Dragon Head). 3 to 4 feet. July and August. Effective spikes of clear pink flowers.

 *PHYSOSTEGIA VIRGINICA VAR. ALBA. 3 to 4 feet. July to August. A white form.
- *PINKS, MAIDEN (Dianthus Deltoides). 6 to 10 inches. May to July. Small fragrant pink flowers. Evergreen bluish green foliage.
- *PINKS, SCOTCH (Dianthus Plumarius). 9 to 12 inches. May and June. Pink, fragrant.
- SCOTCH, VAR. HER MAJESTY. 9 to 12 inches. May and June. Double white; frat. As large and finely formed as a carnation pink. *PINKS grant.
- *PINKS, SCOTCH, VAR. WHITE RESERVE. 9 to 12 inches. May to July. Beautiful double white and very fragrant.
- *PINKS, SWEET WILLIAMS (Dianthus Barbatus). 1 to 2 feet. July to September.

 Dear to the heart of many a flower lover, the literature of the old-time garden teems with pleasant references to this splendid plant. Perfectly hardy and easily grown, its brilliant flowers lasting for many weeks.
- ALL COLORS MIXED. No end of combinations of color, EMPEROR WILLIAM. The most intense velvety crimson red imaginable.
- *PLATYCODON GRANDIFLORUM (Balloon Flower). 2 to 3 feet. June to October.

 Resembles the Campanulas. The large blue bell-like flowers are produced in clusters of from three to six. Plant blooms all summer and is very hardy and desirable.

 *PLATYCODON GRANDIFLORUM VAR. ALBUM. 2 to 3 feet. June to October.

 A white form of the above. Both are fine for cutting.

- PLATYCODON GRANDIFLORUM VAR. MARIESI. 1 foot, June to October. Deep blue bells 3 inches across.
- POLEMONIUM COERULEUM, see Jacob's Ladder.
- POLYGONUM SIEBOLDI (Giant Smart Weed). 8 to 10 feet. July and August. White.
- *POPPY, ICELAND (Papaver Nudicasule). 1 to 2 feet. July and August. White.

 *POPPY, ICELAND (Papaver Nudicasule). 1 to 2 feet. June to November.

 These interesting little poppies with their smooth bluish green foliage and bright golden to orange flowers produced at intervals all summer, are among our most desirable garden plants.

 POPPY ORIENTAL (Papaver Orientale). 2 to 3 feet. June and July. Great showy flowers of the most dazzling brilliancy. The following new varieties of this beautiful oriental poppy range in color from almost white to the deepest red-black. 25c. grade only.

 DAZZLER. The most brilliant fiery scarlet.

 DUKE OF TECK. Large scalet flowers.
 - DUKE OF TECK. Large, scarlet flowers.

 - GOLIATH. Enormous scarlet flowers.
 HARKNESS' SALMON. Very large, orange salmon.
 MARIE STUDHOLM. Pure salmon silvery shading with touch of carmine.
 PRINCESS VICTORIA LOUISE. Pure rose.
- QUEEN ALEXANDRA. Clear salmon rose.

 POTENTILLA (Garden Hybrids). May to September. 6 to 12 inches. Very desirable border plant.

 Handsome foliage, brilliant rose-like flowers.

VARIETIES.

GOLD KUGEL. Clear yellow. LAURIUM. Yellow and red.

NIGRA PLENA. Dark, almost black. VERSICOLOR. Yellow and red.

The above Hardy Herbaceous Plants are offered in three sizes, as follows, unless otherwise noted. The very heavy field clumps can only be supplied in the sorts marked with aj* to the left. Stock will be potted to order and held for any delivery date.

	Each.	Per 10.	Per 100.
*Very strong Field Clumps (Express or Freight)	50c.	\$4.00	\$35.00
Strong Field Grown, usual size (Express recommended)	25c.	2.00	15.00
Smaller size (mostly field grown)	15c.	1.25	10.00

Moss Pink and Hardy Candytuft. Two most desirable plants for the rock-garden, or foreground plants in the hardy border.

PRIMROSE EVENING (Oenothera Serrulaia). 1 foot. May and June. One of the best clear yellow flowers of low growth, especially showy in the early evening and on cloudy days.

PRIMROSE (Oenothera Missouriensis). 6 to 12 inches. July. Mat of bright foliage and large brilliant yellow flowers.

PYRETHRUM ROSEUM (Pink Daisy). 2 to 3 feet. June to August. Rose. Desirable plants with a growth similar to our field daisy.

PYRETHRUM ULIGINOSUM, see Chrysanthemum.

RAGGED ROBIN, see Lychnis.

RANUNCULUS, see Buttercup.

RIBBON GRASS, see Grasses.

ROCK CRESS (Arabis Albida). ½ to 1 foot. April. A beautiful low-growing plant with velvety foliage, which is evergreen. Mass of snow-white in April, making it one of the earliest plants to bloom.

*RUDBECKIA LACINIATA (Cone flower). 6 to 10 feet. July to September. Golden yellow,

*RUDBECKIA LACINIATA VAR. FL. PL. 6 to 10 feet. July to September. This is the extremely popular Golden-Glow. It is one of the most desirable tall-growing hardy plants ever introduced. The blooms, of a rich golden yellow, are produced with great freedom and resemble double cactus dahlias.

RUDBECKIA MAXIMA. 2 to 3 feet. August and September. Golden yellow.

*RUDBECKIA SPECIOSA VAR. NEW-MANII. 2 to 3 feet. July and August. Pure yellow, dark disk.

*RUDBECKIA SUBTOMENTOSA (Black-Byed Susan). 2 to 3 feet. July to October. Yellow, dark cone.

SANDWORT (Arenaria Grandiflora). 6 inches. May. Close-growing evergreen plant, forming a carpet of verdure. Very desirable for rock work; pure white.

*SAXIFRAGA CRASSIFOLIA (Rockfoil).
1 to 2 feet. May. Rose lilac.

SCABIOSA JAPONICA (New) 18 to 24 inches. August to Oct. Beautiful blue flowers, freely produced.

SEA HOLLY (Eryngium Planum). 3 to 4 feet. July to August. Finely cut shiny foliage with thistle-like flowers of amethystine blue.

SEA LAVENDER, see Statice.

Oriental Poppy. The most dazzling gorgeous garden flower.

The above Hardy Herbaceous Plants are offered in three sizes, as follows, unless otherwise noted. The very heavy field clumps can only be supplied in the sorts marked with a * to the left. Stock will be potted to order and held for any delivery date.

	Each.	Per 10.	Per 100.
*Very strong Field Clumps (Express or Freight)	50c.	\$4.00 2.00	\$35.00 15.00
Smaller size (mostly field grown)	15c.	1.25	10.00

SEA PINK, see Thrift.

*SEDUM ACRE (Stone Crop). Fine for rockeries. 2 to 3 inches. June and July Yellow.

*SEDUM ALBUM. 3 to 4 inches. July and August. White, red center.
*SEDUM OPPOSITIFOLIUM. 3 to 4 inches. July. White flower. Opposite leaved.

*SEDUM SIEBOLDII. 3 to 4 inches. August to September. Flowers bright pink.

SPECTABILE (Showy Sed feet. September and October.

A splendid garden plant, the showy flat panicles of rosy pink being very effective.

SEMPERVIVUM PYRENAICUM (Houseleek) (Hen and Chickens), 6 inches, July and August. Fine for rockeries. Habit and blooming very attractive and interesting.

SHASTA DAISY, see Daisy.

*SNEEZE WEED (Helenium Autumnale). 6 to 7 feet. August and September.

One of the best tall-growin plants. Flowers golden yellow tall-growing garden

*SNEEZE WEED VAR. GRANDICEPHA-LUM CUPREUM. 3 to 4 feet. July to September.

This new variety of Helenium produces coppery red flowers of a rich shade.

SNEEZE WEED VAR. RIVERTON GEM. 4 to 5 feet. July to September. Similar to preceding but of deepest bronzy red.

Spiraea Chinensis or Astilbe.

SPECIOSUM LILY, see page 52

SPEEDWELL, see Veronica.

SPIDERWORT, see Tradescantia.

*SPIDERWORT, see Tradescantia.

*SPIRAEA ARUNCUS (Aruncus Sylvester), 5 to 6 feet. May and June. Creamy white.

A desirable, strong-growing plant, fine for backgrounds to herbaceous borders.

2 to 3 feet. June. Pink to rose. Very desirable

*SPIRAEA CHINENSIS (Assilbe Chinensis). 2 to 3 feet. June. Pink to rose. Very desirable
*SPIRAEA FILIPENDULA FL. PL. (Ulmaria Filipendula). 2 to 3 feet. May and June.
Beatutiful fern-like foliage which remains fresh and green throughout the Summer. Flowers
are produced on spikes and are white and very graceful and double.
*SPIRAEA JAP. VAR. GRANDIFLORA. 1 to 2 feet. May and June. Creamy white.

*SPIRAEA JAPONICA VAR. PEACH BLOSSOM. (New.) 12 to 18 inches. May, June. Flowers deep delicate shade of pink.

*SPIRAEA JAPONICA VAR. QUEEN ALEXANDRA. Flowers soft delicate pink. (New.) 12 to 18 inches. May, June

*SPIRAEA PALMATA (U. Purpurea Var. Elegans). 2 to 3 feet. May and June. Light pink.
*SPIRAEA PALMATA VAR. RUBRA (U. Purpurea Var. Rubra). 2 to 6 feet. May and June. *SPIRABA PALMATA (U. Purpurea Var. Elegans). 2 to 3 feet. May and june. Deep rose red.

*SPIRABA PALMATA VAR. RUBRA (U. Purpurea Var. Rubra). 2 to 3 feet. May and June. Deep rose red.

*SPIRABA PENTAPETALA (Double) (U. Pentapetala Var. Fl. Pl.) 2 to 3 feet. May and June. Old garden plant; pure white flowers on spikes and very attractive.

STACHYS BETONICA (Betony). 1 foot. June. Attractive, clear pink spikes.

*STACHYS LANATA (Wooly Woundwort). 1 to 1½ feet. July and August.

Valuable for its very pearly, velvety foliage and ruby red flowers on spikes.

*STACHYS LANATA (Wooly Woundwort). 1 to 1½ feet. August and September.

A beautiful plant producing a cluster of broad evergreen leaves from 4 to 8 inches long, bearing small blue flowers in profusion. Thrives at seashore.

STOKESIA CYANEA, see Aster.

STONE GROP, see Sedum.

SUNFLOWER (Graceful) (Helianthus Orgyalis). 5 to 7 feet. October and November.

The tall flower spikes of the plant produced so late in the season with their medium sized, sunflower-like blooms, disposed all along the stems, make it especially useful.

SUNFLOWER (Maximilian) (H. Maximiliana). 4 to 6 feet. August to October. Fine golden yellow, valuable late flowering plant.

SUNFLOWER (Maximilian) (H. Rigidus Var.) 1 to 3 feet. July to September. Sparingly branched; rough; flowers rich yellow. One of the best.

SUNFLOWER (Pearl) (H. decapetalus Multiflorus Fl. Pl.) 2 to 4 feet. August to October. Resembles a golden double dahlia.

**WEET WILLIAM, see Pinks.

THALICTRUM AOUILEGIFOLIUM (Feathered Columbine). 1 to 3 feet. May to July. White.

THALICTRUM OVILEGIFOLIUM (Rue Anemone). 2 to 3 feet. July and August.

Foliage delicately arranged and graceful.

THALICTRUM OVILEGIFOLIUM (Rue Anemone). 2 to 3 feet. July and August. Evergreen tufts of bright green foliage, from which innumerable flowers appear in dense heads. Pink.

*THYMUS SERPYLLUM (White Mt. Thyme). May. Forming dense mats of dark green foliage.

*THYMUS CORTINGORD AN AUREA (Golden Thyme). Very trailing. Orange scented.

*THYMUS SERP

The above Hardy Herbaccous Plants are offered in three sizes, as follows, unless otherwise noted. The very heavy field clumps can only be supplied in the sorts marked with a * to the left. Stock will be potted to order and held for any delivery date.

Per 100 \$35.00 15.00 10.00 Per 10. \$4.00 *Very strong Field Clumps (Express or Freight)....
Strong Field Grown, usual size (Express recommended)....
Smaller size (mostly field grown)... 50c.

*VERONICA LONGIFOLIA VAR.
SUBSESSILIS. 2 to 3 feet.
July and September. Spikes
of showy flowers of the deepest
clear blue make this plant
very desirable.

*VERONICA INCANA (Hoary
Speedwell). 1 to 2 feet. July
to September. Blue.

*VINCA, see Myrtle.
VIOLA, see Myrtle.
VIOLA, see Myrtle.
VIOLA, see Myrtle.
VIOLET, CRESTED (Viola Cornuta Hybrida.)
Beautiful
pansy-like violets with glossy
foliage; blooms all summer.
Variety of color.
VIOLET, CRESTED WHITE (V.
Cornuta Var. Alba).
Like the preceding; with
pure white flowers.

VIOLET, ENGLISH (V. Odorata
Var. Fl. Pl.)
The true double, sweet
-scented English hardy violet.
Color is of the deepest blue.
VIOLET, ENGLISH (V. Odorata
Var. Fl. Pl.)
Another beautiful form.
Flowers double white, very
large, tinted with pale blue.

WINDFLOWER, see Anemone.

*YARROW, THE PEARL (A.
Plarmica Var. Fl. Pl.) 1 to 2
feet. May to October. Double
white. A very effective plant,
especially when in bloom.
Much prized as a cut flower.

*YARROW, RED (A. Millefolium
Var. Rubra). 1 to 3 feet.
June to October. Aromatic,
tern-like foliage, which is very
ornamental. Wire red.

*YARROW, WOOLY (A. Tomentosum). 8 to 10 inches. June
and July. Bright yellow flowers.

*YELLOW LILLES, see page 53.

YELLOW LILIES, see page 53.

YUCCA, see Lily, page 52.

Yucca Filamentosa, or Adam's Thread and Needle, see page 52.

PHOTOGRAPHS OF ATTRACTIVE GARDENS AND FINE INDIVIDUAL TREES AND PLANTS.

We are always glad to receive photographs and are quite willing to pay liberally for those we can use to illustrate attractive gardens, etc.

The above Hardy Herbaceous Plants are offered in three sizes, as follows, unless otherwise noted. The very heavy field clumps can only be supplied in the sorts marked with a * to the left. Stock will be potted to order and held for any delivery date.

Strong Field Grown, usual size (Express recommended)	25c.	2.00	15.00
Smaller size (mostly field grown)	15c.	1.25	10.00

ROSES--Choice Hardy Garden.

ROSES FOR GARDENS are a specialty at the nursery, our sales amounting to many thousands annually. The plants are strong, field-grown bushes, large enough to make a sturdy growth and produce a profusion of bloom right away. This grade of plants is very popular with our customers.

Our roses should not be confounded with the department store article often offered. Our roses are all selected strong field-grown dormant plants dug fresh from the open ground and securely packed for each order.

The love of roses is universal and fortunate it is that the most beautiful ones live out of doors and thrive in ordinary gardens. Be liberal with the fertilizer in preparing your rose gardens; they will return many fold in the way of luxuriance and profusion of blooms.

Garden Hybrid Roses.

Strictly Hardy.

Frau Karl Druschki, a charming white rose.
About one-third natural size.

This class of roses blooms profusely in June and at intervals throughout the Summer and Fall. The popular hardy garden roses mostly belong to this class and are always satisfactory.

Do not allow roses to suffer from want of plenty of fertilizer, as they are gross feeders, and only when they have plenty to feed on can they be expected to produce best results.

Alfred Colomb. Brilliant crimson. Very large full form. Extremely fragrant.

*Anne De Diesbach. (Syn. Glory of France). Carmine, a beautiful shade; very large. A superior garden sort; fragrant.

Baby Rambler, see hybrid teas.

Baron De Bonstetten. Rich velvety maroon; large, full. A splendid sort.

If in doubt as to the varieties of roses wanted for any special purpose we will be glad to assist by making selections for you.

Prices of All Roses.

"Box by express containing Roses received. The Roses are now in the ground and a finer lot I have never seen before."

This wondrously beautiful rose arch is the marvelous development of plants purchased at the nursery just thirteen months before photo was taken. Such new climbing roses as Dorothy Perkins, Lady Gay and Hiawatha can be depended upon to create such effects in this short time under reasonably favorable conditions

Even the restricted city garden can be made wonderfully beautiful by the free use of these charming climbing roses, planted along fences and trained over pergolas and arches

Garden Hybrid Roses—Continued.

*Clio. Flowers large, of fine globular form, flesh color, shaded in the center with rosy pink; growth vigorous.

Earl of Dufferin. Rich brilliant velvety crimson, shaded with dark maroon; large, full, finely formed; delightful fragrance.

*Francois Levet. Cherry pink; medium size; well formed; vigorous habit.

*Frau Karl Druschki. Flowers very large, beautiful, pure white. This is one of the best white hybrid perpetuals yet introduced.

*General Jacqueminot. Brilliant crimson; not full, but large and extremely effective; fragrant, and of excellent habit.

Jules Margottin. Carmine rose, fine in open flower and in bud.

*Madame Gabriel Luizet. Pink, distinct, very large, cup-shaped.

large, cup-shaped.

*Magna Charta. Pink, suffused with carmine; full globular. Excellent rose.

*Margaret Dickson. Of magnificent form; white, with pale flesh center; petals very large, shell shaped. *Marshall P. Wilder. Large, well formed; color cherry-carmine and very fragrant. *Mrs. John Laing. Soft pink; produced on

*Mrs. John Laing. Soft pink; produced on strong stems.

*Mrs. R. G. Sharman Crawford. Rosy pink, outer petals shaded with pale flesh, white at base of petals; of perfect imbricated form.

*Paul Neyron. Deep rose color; by far the largest variety in cultivation.

*Prince Camille de Rohan. Deep velvety crimson; large, moderately full.

Tom Wood. Cherry red, full, finely formed, borne on long stems.

*Ulrich Brunner. Brilliant cherry red, a very effective color; flowers of fine form.

*Victor Verdier. Bright rose, with carmine center, a very clear shade of color.

Rambler Roses other Hardy Climbing Roses

These are all splendid pillar and arbor roses; are also very effective for planting along fence lines, etc.

*Alberic Barbier. Creamy white, canary yellow in center. Attractive foliage.

Baltimore Belle. Pale blush, becoming nearly white; compact and fine.

*Crimson Rambler. This wonderful Japanese Rose is one of the most important and valuable acquisitions of recent years.

*Dorothy Perkins. Very double and are borne in clusters of ten to twenty. The color is a clear shell-pink.

*Hiawatha. Single, bright ruby red, white center with dark yellow anthers.

*Lady Gay. Similar to the popular Dorothy Perkins, but lighter in color.

Manda's Triumph. Double pure white in clusters, very vigorous.

Multiflora. A charming species. Great clusters of white single flowers, showy red fruits which last all winter.

Philadelphia Rambler. The blooms are larger than the Crimson Rambler and full to the center and of a deeper crimson color.

Pink Rambler. Flowers medium size, pink, in clusters, very pretty.

Prairie Queen. Bright rosy red, extra.

*Setigera. The Michigan or Prairie Rose.
Large single flowers, of a deep rose color.

South Orange Perfection. Double flowers
in great profusion; color soft blush pink.

Sweet Brier. Old favorite, fragrant foliage.

HYBRID SWEET BRIER.

Anne of Gerstein. Dark crimson.

Brenda. Peach, bright yellow anthers.

*Tausendschon, or Thousand Beauties. Charming, strong grower. Flowers in large clusters, varying from creamy pink to bright red, all in the same cluster.

Trier. Creamy white with dark yellow anthers and are borne in large clusters.

Universal Favorite. Double, clear rose in clusters, very vigorous, beautiful foliage.

*White Dorothy Perkins. Same habit of growth and freedom of flowering as Dorothy Perkins, but with pure white blooms.

*Wichuriana. Memorial rose, trailing species, pure white single.

William C. Egan. Bloom is large, very full, clear flesh-color.

If in doubt as to the varieties of roses wanted for any special purpose we will be glad to assist by making selections for you.

Very strong field grown.... Medium grade, field grown...* *Also in 5 inch pots ready June 1st..... Each, Each,

"The Roses I got of you are certainly the best in town. Two days after I put the last shipment in the ground two of the plants blossomed (pot-grown). My Dorothy Perkins has grown to eight feet in height.'

Rose Gardens form conspicuous parts in most garden layouts. Formal effects like this one are in strong contrast to the illustration on page 61; both equally charming in their

Rosa Rugosa and Its Hybrids.

Rosa Rugosa in its several forms not only makes an effective individual plant, but is very desirable for hedges and generous masses.

*White of Coubert. Semi-double, pure white, long pointed buds, very desirable.

Madame Geo. Bruant, In the bud state the flowers are long and pointed, when open, semi-double; pure white and fragrant and produced freely.

Nova Zembla. This is a pure white, beauti-

fully formed rose, very fragrant, vigorous and free blooming.

*Rugosa Alba. Single pure white flowers, highly scented; a splendid shrub-like rose.

*Rugosa Rubra. Flowers single, of a most beautiful rosy red, succeeded by large berries of a rich orange red color.

Other Choice Hardy Garden Roses.

Austrian Yellow. A good old garden rose seldom seen now-a-days.

Blanche Moreau. (Moss). Pure white, large, full, and of perfect form.

Blanda. Single pink flowers, followed with showy bright red fruits.

Damask. Popular old-time rose of delightful fragrance and delicate almost tea rose like delicacy in the opening buds. Pink.

*Harrison's Yellow. Golden yellow, medium size; semi-double. A free bloomer.

Lucida Alba. Beautiful white form of one of our pretty low native roses.

Madam Plantier. Pure white. Produced in great abundance; vigorous, bushy habit.

*Persian Yellow. Bright yellow, small, nearly

*Persian Yellow. Bright yellow, small, nearly full.

Salet. (Moss). Deep pink colored buds, surrounded with a mossy fringe and crest. A fragrant and very beautiful moss rose.

Spinosissima. (Scotch). Dainty little roses, seldom getting more than two feet. Flowers light rose pink to white. This is a splendid little rose for naturalizing and will grow in very dry rocky places.

York and Lancaster. Handsome large semi-double blooms, splashed and striped, bright red, white and yellowish tints.

Hybrid Tea Roses.

Very free bloomers; hardy with slight protection.

*Baby Rambler. Dwarf rose with great clusters of blooms of same color as Crimson Rambler, blooms all summer.
*Caroline Testout. Large. Clear bright rose color. Very sweet.
*Clothilde Soupert. Very double, pearly white.
*Gruss an Teplitz. Color scarlet shading to velvety crimson, very fragrant.

**Hermosa. Soft pink, cupped, fine bloomervery reliable old rose.

*Killarney. A charming pink rose.

*Kaiserin Augusta Victoria. An extra fine white variety; perfect in form.

*La France. Delicate silvery rose, changing to silvery pink; very large, full.

*Maman Cochet. Large, full, clear carmine.

*White Maman Cochet. Pure white, tinged pink.

Tree or standard roses, grafted on 3 to 4 ft. stems, in red, white and pink, 75c. to \$1.00 each.

If in doubt as to the varieties of roses wanted for any special purpose we will be glad to assist by making selections for you.

Each, \$.50 Per 10, \$4.50 Per 10, 2.75 Per 10, 4.50 Per 100, \$30.00 Per 100, 20.00 Per 100, 40.00 Each, .30 Each, .50

"The case containing the rose bushes has arrived and all in perfect condition with the exception of one plant, which was broken in packing."

Fruit Department.

"Everything I have ever bought from you has done splendidly. The Plums on one tree were so thick this year you could not see the branches. After we had picked a bushel from it you could not tell that any had been taken away."

New Grape, Campbell's Early.

VARIETIES OF GRAPES.--Hardy Garden Grapes.

BACCHUS. (Black). The wine grape, very rapid grower, fruit rich, sprightly flavor, berries small in compact clusters.
BRIGHTON. (Red). Bunches large and well formed; berries medium to large, of good flavor. Excellent early grape.
CAMPBELL'S EARLY. (Black). This superb new grape is fulfilling the promises made for it remarkably well. It forms large and handsome clusters, thickly set with large round berries. Flavor is rich, sweet and delightful. Very early.
CATAWBA. (Red). This excellent table and wine grape has round berries; when fully ripe they are a dark copper color.
CONCORD. (Black). The fine market leader, with large, handsome clusters of large, luscious berries. Entirely hardy, productive and reliable.

EATON. (Black). Very large, a most delicious table grape of highest quality.

DIAMOND. (White). This handsome and valuable grape is a seedling of Concord, has the same sturdy qualities of vine, and ripens its fruit several weeks earlier.

NIAGARA. (White). Its clusters are large and handsome, compactly filled with large berries and having a thin but tough skin. Flesh is slightly pulpy, tender, sweet and delight-

POCKLINGTON. (White). Clusters and berries large, light golden yellow when fully ripe; sweet and tender, with little pulp.

WORDEN. (Black). This seedling of Concord is larger than the type in bunch and berry, of better flavor, earlier, as hardy and healthy in every way.

Prices.

Extra selected, 3 years..... Each, \$.50 Per 10, \$4.50 Selected, 2 years..... Each, .35 Per 10, 3.00 Per 100, \$20.00

FOR SPECIAL DISCOUNTS SEE INSIDE FRONT COVER PAGE.

Blackberry, Eldorado.

Gooseberries.

Downing. Fruit large, roundish, light green, juicy. Each, 15 cts.; per 10, \$1.25.

Houghton. Medium size; fruit red; bears abundantly. Each, 15 cts.; per 10, \$1.00.

Industry. Berries of large size; dark red, excellent quality. Each, 25 cts.; per 10, \$2.00.

Red Jacket. Red; resembles Houghton, but the fruit is larger; bush vigorous. Each, 20 cents.; per 10, \$1.75.

Blackberries.

Eldorado. Berries are large, jet black; large clusters; sweet, melting, fine flavor.

Snyder. Medium size, very hardy and enormously productive; has no hard core.

Rathbun. Fruit borne on long stems in clusters; berry very large; sweet and luscious.

Prices of Blackberries.

Each, 15 cts; per 10, \$1.00; per 100, \$7.00.

Ouinces.

Apple or Orange. Large, roundish; bright golden yellow, cooks tender; excellent flavor.

Champion. The tree is a prolific and constant bearer; fruit larger than the orange.

Bentley. Large and handsome, after the orange quince type.

Rea's Mammoth. Very large and a prolific bearer.

Prices of Quinces.

5 to 7 feet, transplanted, each 75 cts. to \$3.00. Write for available list of transplanted sizes.

3 to 4 feet, each, 50 cts.; per 10, \$4.00. per 100, \$35.00.

Champion Quince. The third year from the nursery. Quince trees take up very little room in the garden and not only bear very delicious fruits but are quite decorative, both in fruit and in growth. Mr. Chillingworth, who appears in this picture, is an entinusiastic and successful gardener and produces quite a quantity of most delicious and beautify fruits within the restrictions of a small city garden.

Gooseberry, Downing.

Winter Pruning Work.

You can arrange with us to annually look over your grounds and attend to the incidental annual pruning work which may be required. If left in our charge you can depend upon its being done in a thorough and skillful manner.

[&]quot;The fruit trees purchased of you and set out last November have done well and we wish to get a few more this fall."

St. Regis.

To be able to pick from one's own berry patch fresh fruits in the fullness of perfect maturity is a privilege worth the little time and trouble it costs. You save the exquisite taste and delightful aroma which are as fleeting as the fragrance of a flower. Both are usually gone from the berries obtained at the fruit stand.

Raspberries.

Cuthbert. Red; a reliable variety; berries are large, conical and of a rich crimson color; flavor rich and luscious; hardy and productive; mid-season to late.

Columbian. Purple; very large, moderately firm; and one of the best for canning; bush remarkably strong and productive.

Cumberland. Black; very large; similar to Gregg in quality and firmness; mid-season.

Gregg. Black; the leading market berry of its class; firm and of good quality; ripens late.

Golden Queen. Vellow; equal in size to Cuthbert; very hardy; very prolific.

St. Regis Everbearing. (New). Red; berries of large size and of a bright crimson color. Flavor very sweet and rich; excellent quality. Highly productive and very hardy. Producing abundantly throughout the entire summer. Each, 25 cts.; per ten, \$2.00.

Prices of Raspberries (except St. Regis)..... Each, \$0.15 Strong canes.... 10, \$1.25 Per 100, \$8,00

A few currant bushes down the walk or along the fence will produce fruit enough for the win-ter supply of jams and jellies and plenty fresh fruit for the table.

Currants.

Black Champion. Very large, unsurpassed for wine, jams and jelly.

Red, a well-known and popular Cherry. variety.

Fay's Prolific. Color deep red; great bearer; stems longer than the old Cherry Currant

Perfection. A splendid new red currant of fine quality. 2 years, each 25 cts.; per 10, \$2.25.

White Grape. Very large; yellowish white; sweet or very mild acid.

Wilder. Red, a splendid currant, vigorous, of best quality.

Prices of Currants.

Extra strong (except Perfection), 2 years each, 25 cts.; per 10, \$2.00.

Usual size (except Perfection), 2 years, each 15 cts.; per 10, \$1.25; per 100, \$9.00.

RUIT growing on a commercial scale is one of the country's profitable industries. No part of our great country offers a better opportunity to grow high flavored and beautiful appearing fruits than New England. In the same way the home acre, yes, even the small city garden can be made to return crops of fruits well worth all the labor they required. There is also the genuine pleasure and delight many of us get and more would if they only knew what they are missing, in watching trees grow. One's interest is kept at the too notch from the blossoming time, when fruit trees are bowers of floral grace and beauty, until the ripening colors appear and in the full maturity we have the actual luscious fruits of our watchfulness and care not only beautiful, but sure to delight the palate and contribute to the true economy of the household.

"All the shipments came to hand in very good order and I see no reason why I should not get good satisfaction from them.

Strawberries.

With a small patch of strawberries in one's garden a surprisingly large quantity of berries can be picked during the fruiting season. Fresh berries from the garden are very superior to the ordinary fruit stand berry, both in appearance and delicacy of flavor.

Varieties marked (P.) are pistillate; (S.) stami-nate. At least every fifth row or about every fifth plant in the row should be a staminate variety to get the heaviest yield of fruit.

VARIETIES.

Brandywine. (S.) Of immense size, firm, solid and shapely. Flesh red to the core and delicious. Of remarkable vigor.

Gandy. (S.) The leading late variety. Very robust habit, large, firm and good quality.

Haverland. (P.) A fine grower, very productive.
One of the leading early market sorts.

Lester Lovett. (S.) A giant in growth and extra late. Quality of a high, rich flavor, and with delightful aroma.

McKinley. (S.) Vigorous, healthy and great yielder, delicious fruit. Ripening in mid-McKinley. (S.) Vis yielder, delicious season.

Nic Ohmer. (S.) Fine berry, very large. Deep red all through. Highly flavored and delicious. President. (P.) Strong grower. Fruit very large and round, of solid texture and rich quality. Ripening in mid-season.

President. (P.) Strong grower. Fruit very large and round, of solid texture and rich quality. Ripening in mid-season.

Rio. (P.) Very early, being the first really good berry to ripen. Medium size.

Senator Dunlap. (S.) Large, regular and attractive berry. Deep red. Excellent in quality. Early.

William Belt. (P.) Early season. Luxuriant grower and very productive. Fruit often of enormous size. Rich colored, firm, of the best quality.

Prices of Strawberries.

Selected layers.....

Each, \$.05

Per 10, \$.25

Inquire for list issued about July 1st. Pot grown plants ready August 1st.

Asparagus.

Barr's Mammoth. A new and popular variety. One of the best.

Conover's. A well-known and popular variety.

netto. A new variety, producing enormous and delicious sprouts. Extra strong, 2 years, per 10, 30 cts.; per 100, \$2.00; per 1,000, \$8.00. Extra strong, 1 year, per 10, 15 cts.; per 100, \$1.00; per 1,000, \$5.00. Palmetto.

Rhubarb.

Linnaeus. Leaf-stalks large, tender, juicy, produced quite early. Each, 15 cts.; per 10, \$1.00. Larger roots, each, 25 cts.; per 10, \$2.00.

Other Garden Herbs and Hardy Roots.

Catnip. Each, 15 cts.; per 10, \$1.25.

Chives. (Clumps). Each, 15 cts.; per 10, \$1.25.

Fennel. (Pot grown). Each, 15 cts.; per 10, \$1.25.

D-Vine. Each, 15 cts.; per 10, \$1.00; per 100, \$6.00. Hop-Vine.

Horseradish. (Sets). Each, 5 cts.; per 10, 40 cts.; per 100, \$2.50.

Peppermint. Each, 15 cts.; per 10, \$1.25.

A few plants of Rhu-barb or Pie Plant will furnish abundance of material for aelicious pies and sauces at the season of the year when it is most acceptable.

A good generous planting of Asparagus in one's garden is always a good investment.

Sage. Holt's Mammoth. Each, 20 cts.; per 10, Tarragon. Each, 15 cts.; per 10, \$1.25. \$1.50; per 100, \$8.00.

armint. Meadow Mint. Each, 15 cts.; per 10, \$1.25. Spearmint.

Tansy. Each, 15 cts.; per 10, \$1.25.

Thyme. Orange Scented. Each, 15 cts.; per 10, \$1.25.

Wormwood. (Artemesia). Each, 15 cts.

"The plants which I ordered from you arrived in fine condition yesterday. I was well pleased with the way they were packed.'

Garden Ornaments

In Stone, Concrete and Wood.

THIS new department in connection with our business we are sure will be a great convenience to garden lovers. Not only in the formal garden, with its various architectural features, but in the many and varied styles of gardens, whose very variety makes gardening in America so interesting, are these garden accessories often most pleasing.

In Stone and Concrete.

ARDEN seats, Sun-dial pedestals, Vases, etc. Our assortment comprises many beautiful examples of most refined proportions. Special designs executed in either stone or concrete to order.

Garden Seats in stone or concrete.

Attractive Garden Seat in wood

In Wood.

HERE is something so light and airy about wood work in the garden that there are instances where it is far more attractive and suitable than more severe and solid structures. In such instances our collection will appeal especially.

Cypress Plant Tub.

Japanese Lanterns, Etc.

At the Nursery can be seen a rare collection of these interesting Japanese stone garden ornaments assembled personally by one of the firm while in Japan within the past year. While these individual examples are not for sale, replicas so skillfully executed in concrete that it would be difficult to tell the difference, are offered. By special arrangements we can also import direct from Japan originals in bronze and stone and will be pleased to quote prices. in bronze and stone and will be pleased to quote prices.

FOR SPECIAL DISCOUNTS SEE INSIDE FRONT COVER PAGE.

From photo taken at nursery in early summer. By selecting well, developed specimen stock immediately attractive effects can be assured, also see illustration on following page taken in winter from about the same position.

CONFIDENCE.

We purpose to merit the confidence of those who favor us with their business. Conditions not within our control, however, have much to do with their business. Conditions not within our control, however, have much to do with the success or failure of stock after it leaves our hands. We can many times from the store of our practical experience offer suggestions and advice which will be a great help. This we are always glad to do, and trust that those seeking information will feel free to consult us.

Transplanting Instruction booklet sent free on request.

SPRING 1912 will be a Short Shipping Season

Place your order at once, not putting it off until you are ready to plant ...

WEATHER CONDITIONS have been very unusual the past winter. The frost has penetrated the ground so deeply that the season will be well advanced before plantings will be practicable. This will shorten the actual shipping season for Nursery Stock. Even with our excellent shipping facilities, we will be taxed to our utmost to get orders off this Spring. We cannot too strongly urge you to place your order as soon as possible. This not only insures you from possible disappointment, but will be of great assistance to us. In fairness to all, orders will be assembled and shipped in the rotation they are received; the purchaser, of course, exercising the privilege of stating date of shipment desired, provided it does not conflict with orders already entered.

Very respectfully,

THE ELM CITY NURSERY CO.

Spring and Summer

Bedding Plants

BY special arrangement with a skillful and successful grower of these useful summer plants we are able to make the following prices, including careful packing for shipment by express for out-of-town orders and delivery to destinations for city and near vicinity orders.

No order for less than \$1.00 can be accepted for shipment.

For Early Spring Planting.
